RESIDENT ACCESS
Emergency readiness starts here.
Sign in to request help, track response, and manage your TanzAlert wearable.
This exception was thrown because the response has a status code of 530 and RequestOptions.validateStatus was configured to throw for this status code. The status code of 530 has the following meaning: "Server error - the server failed to fulfil an apparently valid request"
Read more about status codes at https://developer.mozilla.org/en-US/docs/Web/HTTP/Status
In order to resolve this exception you typically have either to verify and fix your request code or you have to fix the server code.
